

Compact Rice Mill Unit INELCO 1200A

- ✓ This complete compact pre-engineered rice mill unit handles up to 2000 Lbs per hour of incoming rough rice.
- ✓ Ideal size for rice labs and seed research processing facilities.
- ✓ Features a very efficient total power consumption of less than 50 HP.
- ✓ Requires only 85 sq feet of floor area (excluding service and operative areas) and 12 ft. roof clearance.
- ✓ Could be painted to match any existing machinery color.
- ✓ To ensure a high quality product, this unit features every processing step as provided in all modern medium and large-scale rice mills.
- ✓ Provided to maximize quality and profit, this is the only compact mill that provides a paddy machine and a two break polishing system to accomplish a very low broken ratio. (Abrasive and friction with water injection as optional).
- ✓ A complete set of elevators, motors, pipes, electrical control panel, by-products handling and machinery makes this unit a perfect start up turnkey rice mill.
- ✓ Spare parts for rush delivery and service assistance available 24 hours, 7 days a week.
- ✓ The mill could be modified to fit your particular needs.
- ✓ Manufacturer is ISO9001 certified. One year limited warranty.

Model	Capacity (Lbs/Hr)	Power Usage (HP)	Sheller Rolls (size)	Warranty (months)	Service availability
