

## **Gravity Paddy Separators Series ECF**

**ECF 4020**

**ECF 6016**

- ❑ Gravity paddy separators, take advantage of the different weights and friction coefficients to separate paddy from husked rice.
- ❑ Two identical sets of separating tables in a symmetric-drive motion ensure better space usage and a reliable paddy separation system.
- ❑ Oscillating speed can be adjusted manually (variable diameter pulley) or by an electronic frequency controller for greater precision.
- ❑ Transparent covered trays guarantees dust-free operation and easy visual inspection.
- ❑ Highly stable oscillation system requires only minimal operator intervention.

### **Technical Parameters**

<b>Model</b>	<b>Capacity</b>	<b>Weight</b>	<b>Power</b>	<b>Dimensions</b>
ECZ 4020	Up to 10 MT/H	3700 Lbs	6 HP	9' x 5' 4" x 6' 8"
ECZ 6016	Up to 5.5 MT/H	2420 Lbs	4 HP	7' 2" x 5' x 7' 2"
